Full Rave or Chill Out, All in One

Bring home the clubbing experience in full excitement, complete with authentic sound and atmosphere. The Club5 one-box audio system is offered by none other than Pioneer, the most acknowledged brand among professional music-makers. In addition to dynamic bass and quality sound, Rave and Chill LED illumination modes enhance the party mood by activating in sync with the playing music. By a push of the top button, you can call up your playlists with your voice. Connect two or more units for an extra boost.

- Vertical or Horizontal Layout
- Auto Standby
- Carrying Handle

**ACCESSORIES**
- Quick Start Guide
- Safety Brochure
- Power Cord
- Speaker Feet x 4 (For Horizontal Placement)
Pioneer Club Sound
Bring club sound home!

Kick Enhance
The bass drum is not just a low note, but also contains high frequencies that often get offset with a bass boost. Pioneer’s Kick Enhance technology boosts the cancelled out frequency, and gives more attack to the kick. This results in a speedy bass for an upbeat sound.

Low Distortion Driver Design
The large speaker drivers can deliver plenty of power from the amplifier without distortion, letting the Club5 rock the house with dynamic performance.

Rave & Chill Lighting
Two illumination modes offer the ideal atmosphere for your mood or music. You can select mixed or single colour lights.

• Rave LED Mode: lights flash in sync to the beat of music for a pumped-up feel
• Chill LED Mode: lights slowly glow to the rhythm, enhancing the mood

Call Your Playlists
Change songs by voice command
You can instantly switch to a different playlist on your music services such as Spotify, TuneIn by pressing the “Voice” button on the unit’s top panel and calling out “Play [name of playlist]” to the built-in mic.

Make Your Party Even Louder
Combine units to boost the sound
You can expand the excitement by wirelessly connecting two units and using them as left and right speakers, or link as many units as you want with wired connection—ideal for parties and other fun occasions.

Horizontal or Vertical
Place speakers the way you want
The Club5 can be placed horizontally or vertically to match your space or style. You can use the included feet for horizontal layout.

Pioneer Club Sound App
Control playlists, volume, lighting and more
Use the free Pioneer Club Sound App to save your playlists on RAVE/CHILL presets, as well as control the LED mode.
